"ALERT BRIEFING"

FADE IN:

1 EXT. LOCATION #1 - DAY

1

(BLUR TO COLOR IN)

VIPER AND BONES

(Viper standing with back to camera,)

(BONES walks into scene from camera)

BONES

(VIPER turns around, wearing white t-shirt flight suit tied at waist w/dog tags)

Hey VIPER, we just got raised to Alert 1.

BONES

Commander Air Group says you, Zen Master, THE CLAWS and myself are up for something special today.

VIPER

We're not on station for some whiskey charlie reconnaissance mission are we?

BONES

Direct Air Support Center is gonna fill us in more when we are airborne. But we are flying a strike mission over Los Angeles.

VIPER

(listening)

BONES

We're gonna eliminate enemy aircraft and provide ground support for our A-10 Hogs to take out the SAM missile sites.

VIPER

(listening)

BONES

(getting mobile out of pocket)  
ELINT has sent sat images and the A-TAC plan to our secure mobiles.

(CONTINUED)

VIPER AND BONES  
(both looking at mobile)  
VIPER moves into frame with BONES

VIPER AND BONES  
(looking down at mobile)

BONES  
(zoom in on mobile){INTEL  
Video}

KAUFMAN  
(voice of INTEL)  
Dismantling of the communist  
Chinese and North Korean air  
defenses on the western coast of  
the United States begins with  
miniature air launched decoy's  
(MALDS), launched as the first wave  
of the attack.

Formations of MALDS will execute  
tactics to stimulate the air  
defenses. Allowing  
detection, classification and  
depletion of the enemy air  
munitions.

With the advanced air defense  
threat degraded, previous  
vulnerable strike aircraft, the  
F-18 Eagle Strike Air Group and  
A-10 Attack Warthogs will able to  
conduct offensive operations with  
impunity.

Seizing airspace superiority,  
destroying surface-to- missile  
sites and marking the mobile  
defense radar systems for the  
A-10's are of the up most priority.

VIPER AND BONES  
(looking up at each other, VIPER nods)  
So get your Eagle talons out,  
VIPER. We're hunting big game  
today.
